Using Retelling Activities To Strengthen Comprehension and Memory

Victoria Inn, 1808 Wellington

KEYNOTE

Colleen Politano: Using Retelling Activities To Strengthen Comprehension and Memory

Learn innovative and practical, research-based ideas for using retelling to increase comprehension and memory skills for all your students. Specific activities will be presented to improve recall of information, comprehension, increase vocabulary, improve writing, and presenting skills. Colleen will demonstrate how incorporating retelling can increase achievement and motivation across

the curriculum. Colleen will share creative, brain-compatible ideas using a wide variety of retelling methods to help all students be more successful learners. You'll leave with an "I can do this" feeling, eager to use these highly practical retelling ideas to help your learners do and be their best.

Colleen is delighted to be back in Winnipeg! She does seminars for the Bureau of Education and Research and works with educators all over the continent, sharing practical ideas for helping students and teachers do and be their best. She is a co-author of *Brain Based Learning with Class*, the *Voices of Experience* series and many other resource

books for teachers. Participants enjoy her humor and practical approach.
