

Manitoba Association of Resource Teachers (MART) and Manitoba School Counselors Association (MSCA)

Engaging the Brain: How to Maximize Every Learner's Potential!

Holy Eucharist Parish Center, 460 Munroe Avenue

KEYNOTE

Terry Small, B. Ed., M.A.

MART and MSCA welcome Terry Small, a master teacher and learning skills specialist. He has taught for 28 years at elementary school, high

school and university levels. His knowledge, warmth, humour and dynamic presentation style have made him a much sought after speaker. Terry has been on television, the radio and in the press. He has presented his ideas to over 180 000 people. These ideas were recently featured on CTV, Global, BCTV, CKNW and in *Student Success*. His sessions are described as practical, fun, and provoking. Terry believes success is a skill anyone can learn. Have you ever taught something only to discover that it just did not “stick”

in the minds of your students? Research has a great deal to say about the brain and learning! It is possible to easily help students learn faster and remember more...and have more fun. Counselors will learn how to help their students be more successful by learning how the brain works and how to engage the learner.

How would you like to extend your skills, knowledge, and experience so that your students can build confidence, academic achievement, and self-esteem? And how would you like new tools and ideas to make your work more fun and reach more students? You will learn many practical tips and strategies that you can use immediately in your class and your life.

Participants: counsellors, resource teachers, teachers, administrators, parents, clinicians
You will learn and discover:

- how the brain processes information
- the best way for students to take notes
- why state and strategy are just as important as content
- the top 10 Brain-Learning Principles
- what students report is the #1 study technique
- how music affects learning
- how to boost attention
- how to increase the capacity of one's memory

and much, much more!
Terry's presentation is lively, humorous, and interactive. This session will support all educators by providing skill development designed to enable students to maximize learning potential. You will leave with new knowledge and many eye-opening ideas that will make your challenging school year more successful for both you and your students.

REGISTRATION

Extra parking is available across the street at Molson School. Registration opens at 8:15 a.m.

MART Membership Only:
Full.....\$20.00
Student/Paraeducator.....\$10.00
